

Dear Friends and Family,

As I think most of know that I have been very much involved in volunteering for a therapeutic horseback riding program for years. For those who do not know much about our program, we have been offering lessons free of charge to riders with a wide range of special needs from youth to seniors. It is awesome to see someone who has difficulties with movement, develop full command of a powerful horse, or a person with a learning disability, master the commands of a dressage pattern, or learn to be calm and self-assured as they learn to relate to their horse. Committed volunteers, however, do not pay for winter care, veterinary fees, tack, and insurance. We depend on donations and fundraisers like this DO MORE 24. Please consider taking this easy opportunity to make a donation during the 24 hours of June 8th.

Progressive Equestrian Therapeutic Services, Inc (PETS) has ***a great opportunity*** through United Way's DO MORE 24 campaign to raise funds for our operating costs.

United Way is organizing this 24 hour online donation marathon on **June 8th** for a multitude of non-profits in the Washington DC area, and PETS is a *lucky participant* again this year. Then you can click on our own special donation page! <https://domore24.org/npos/progressive-equestrian-therapeutic-services-inc> .

Support PETS by funding the wish list that you will find on this page.

Thankfully,

The PETS Staff
